The following are listed on the accompanying PTO-1449 and are in a non-English language. English-language abstracts are enclosed.

1. Japanese Patent (Laid-Open) Application No. 2002-221783 - This document discloses a focus monitor mark built on a photomask.
2. Japanese Patent (Laid-Open) Application No. 2002-299205 - This document discloses monitoring and controlling methods of dose and focus using monitor marks.

This submission does not represent that a search has been made or that no better art exists and does not constitute an admission that each or all of the listed documents are material or constitute "prior art." If the Examiner applies any of the documents as prior art against any claim in the application and applicants determine that the cited documents do not constitute "prior art" under United States law, applicants reserve the right to present to the office the relevant facts and law regarding the appropriate status of such documents. Applicants further reserve the right to take appropriate action to establish the patentability of the disclosed invention over the listed documents, should one or more of the documents be applied against the claims of the present application.
